

Artist

Kiara Pelissier is an international artist born in Mexico in 1976. She grew up in the United States and began working with glass in 1996.

Emotion is at the core of Kiara Pelissier's work. Each piece forms part of a visual diary; every texture, gesture, and color speaks on behalf of the artist. As we journey through this life, we sift through opacity searching for clarity. The hope is that Resilience maintains the role of protagonist and that Translucency will always strive for a dialogue with Light.
